Subject: HAVA Title II Report for Period of 10/01/05 through 09/30/06

Via E-Mail, Facsimile and U.S. Mail

Please accept the following report of all financial activity concerning funds provided to the State of Nevada pursuant to Title II of the Help America Vote Act (HAVA) during the period beginning October 1, 2005 and ending September 30, 2006. The first section of this report is a narrative providing a detailed list of expenditures made with respect to each category of activities described for the use of funds in HAVA §251 and made in furtherance of meeting the requirements of Title III of HAVA, including an analysis and description of the activities and how such activities conform to Nevada's State Plan. The second section of this report consists of the completed Standard Form 269.

Authorized Use of Title II Funds—To Meet the Requirements Set Forth in Title III of HAVA

Section 251 of HAVA provides that Title II monies may be used to meet the requirements of Title III, specifically for purposes of voting system replacement, implementation of provisional voting, providing voter information and education, implementation of a statewide voter registration system and establishment of identification requirements for first time voters.

Nevada's State Status for FY 2005-2006

Nevada, through its HAVA State Plan Advisory Committee under the direction of Secretary of State Dean Heller, adopted and submitted to the Election Assistance Commission its State Plan for FY 2004-2005. Section 3(1) of the State Plan, entitled *Use of Requirements Payments*, describes how the Title II payments received by Nevada will be used to meet the requirements of HAVA Title III, including estimates of the amount of funds that will be made available for such activities. Nevada has continued to use Title II payments for FY 2005-2006 in accordance with this State Plan.

The most significant projects are the upgrade and replacement of the voting systems used in the 17 Nevada counties, and development and implementation of a centralized statewide voter registration system. We have completed the installation of uniform voting systems throughout the State that comply with the standards set forth in § 301(a) of HAVA, in particular to provide for Direct Record Electronic (DRE) voting machines, with attached voter-verifiable paper trail printers (VVPAT) on every DRE purchased with HAVA funds, to be used at all polling places statewide, and both Optical Scan and Sequoia 400-C automated machine voting system to be used for all absentee voting statewide. Our initial version of statewide voter registration system has been completed and was successful implementation prior to the 2006 federal election.

Breakdown of Expenditures by Program, Function or Task

As discussed above, Nevada's expenditures of Title II monies were made as follows, with the lion's share of such monies going to implement uniform, HAVA-compliant voting systems throughout the State, and to conduct a comprehensive statewide training program for use of such new voting systems for all users, including county and state election officials, poll workers, volunteers and the public.

HAVA Section 301:

Voting System Replacement and Training of Election Officials and Poll Workers

\$473,700.00—expenditures made to Sequoia Voting Systems (Sequoia) pursuant to the State's contract with Sequoia for purchase of additional 71 voting systems to be used statewide, as well as for all associated equipment, software, paper trails, ancillary devices, maintenance, warranties, and services related to the statewide voting system's implementation, including training. The total amount of these additional expenditures were \$473,700.00 of which the State matched 5% at \$26,300.00. The above expenditures, paid from Title II monies, reflect payments due to Sequoia.

HAVA Section 101(b)(1)(B):

Improving the Administration of Elections for Federal Office

\$7,675.00---expenditures made to NetVersant for the development, implementation and customer support of the State's provisional voting line. The total amount of these services and expenditures were \$7,675.00 of which the State matched 5% at \$426.00

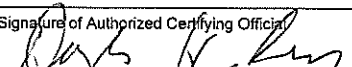

\$56,029.02----expenditures made for both server hosting costs and VPN lines to ensure hardware and infrastructure to support statewide voter registration databases. The total amount of these services and expenditures included a State match at 5% of \$3,111.00.

\$296,818.39—expenditures made to statewide voter registration list vendor, state contractor Suzie Block for additional outside consulting and support for meeting statewide voter registration list compliance, additional costs associated with purchasing equipment and infrastructure such as additional HP printers and Dell Servers and engineering and infrastructure support from state agency DOIT. The total amount of these services and expenditures is \$296,818.39 of which the State matched 5% at \$16,480.00.

FINANCIAL STATUS REPORT
